First Differences

Date: \_\_\_\_\_

#1 slope = \_\_\_\_\_

$x$	$y$	first differences
0		
1		
2		
3		
4		

#2 slope = \_\_\_\_\_

$x$	$y$	first differences
-2		
-1		
0		
1		
2		

#3 slope = \_\_\_\_\_

$x$	$y$	first differences
2		
3		
4		
5		
6		

#4 slope = \_\_\_\_\_

$x$	$y$	first differences
-6		
-3		
0		
3		
6		

#5

$x$	$y$	first differences
-1		
0		
1		
2		
3		

#6 slope = \_\_\_\_\_

$x$	$y$	first differences
-2		
0		
3		
4		
8		

**Conclusions:** All first differences are the same in a table of values ONLY IF:

① \_\_\_\_\_ AND ② \_\_\_\_\_

First differences are equal to the slope only if ①, ② AND ③ \_\_\_\_\_
