

Special Graphs Are Easy!

Date:

1. Determine the equation of each line.
2. State whether the line is horizontal or vertical.

 <p>1. $y=5$ horizontal</p>	 <p>2. $x=3$ vertical</p>	 <p>3. $y=-4$ horizontal</p>
 <p>4. $x=-4$ vertical</p>	 <p>5. $y=-8$ horizontal</p>	 <p>6. $x=1$ vertical</p>
 <p>7. $y=\frac{1}{2}$ horizontal</p>	 <p>8. $y=0$ horizontal</p>	 <p>9. $x=-7$ vertical</p>
 <p>10. $x=0$ vertical</p>	 <p>11. $y=-2.5$ horizontal</p>	 <p>12. $x=6.5$ vertical</p>
